A Better Experience
We’re so much more than windows

OUR MISSION: GETTING IT RIGHT EVERY TIME

As one of the nation’s largest suppliers of high-quality windows for remodeling and replacement projects, our customers count on us to provide a proven product that goes above and beyond expectations. We do so much to ensure a positive experience for our customers, professional partners, homeowners, and team members—from the relationships we build, to the relentless attention to detail that goes into every window we make.

Each of our remodeling and replacement products is designed and fabricated with precision and integrity to ensure every customer receives the high-quality windows and sliding glass doors they want and expect. Our “good, better, best” window platform eases the selection process to ensure you make an addition to your home that will add value and satisfaction for years to come.

Our dedicated team strives for 100% every day and we do not consider our job complete until our windows are properly installed in the home. By building relationships through an accessible and service-oriented approach, we are setting a higher standard for remodeling and replacement products throughout the industry. Working with MI you can expect:

- Attentive support before and after the sale
- A nationwide network of distributors and dealers
- A wide breadth of precision-built products
- Reliable deliveries that are on-time, accurate, and complete
Leading the way

Relentlessly tested so nothing is left to chance

Our state-of-the-art facilities, one-of-a-kind quality management program, and robust in-house test walls help ensure we meet and often exceed industry standards. In fact, our flagship test wall is one of the most extensive in the industry, allowing us to conduct comprehensive tests where we can rapidly analyze and refine our products.

Our engineering team also conducts several additional tests that go beyond what’s required for American Architectural Manufacturers Association (AAMA) and National Fenestration Rating Council (NFRC) certifications, including sealant, vinyl impact, cold-weather performance, and more. The result is a superior product that you will enjoy for years to come.
Setting a higher standard

A window does so much. It creates a view to the outside world, lets natural light in, and provides protection from the elements. It can also help lower energy bills, while making a statement and completing a home. That’s why we take the responsibility of making your windows so personally.

All of our products are built with precision, and no stone is left unturned. We utilize the latest materials to optimize energy performance, offering multiple enhancements that allow us to meet and exceed industry standards.

PERFORMANCE FACTORS

Our products often meet and exceed ENERGY STAR® standards in climate zones across the country. Visit our website (miwindows.com) for a complete listing of ENERGY STAR-qualified products. Look for the ENERGY STAR label to ensure you are getting windows you can rely on.

U-Value measures the amount of heat lost from a home. The lower the U-value, the better the window is at insulating. A low U-value is key to keeping your home comfortable during colder weather.

Solar Heat Gain Coefficient (SHGC) measures how much heat from the sun is blocked from entering the home. A low SHGC is desirable to keep heat out of your home during warmer weather.

ENERGY-FOCUSED PRODUCT ENHANCEMENTS

Warm-edge spacers optimize the energy efficiency of double- and triple-paned windows. They result in higher-performing windows by helping to lower conductivity, improve argon gas retention, and increase condensation resistance.

Argon is an invisible gas injected into a glass unit to increase its insulating performance. It reduces heat transfer through the glass, lessens the possibility of condensation and frost, and helps to block harmful UV rays from entering the home.

Krypton is even denser than Argon, allowing it to more effectively decrease the flow of heat into and out of the home when it is added to your windows. This high-performance insulator is available in select units with triple-pane glass.

Low-E is a microscopic layer of metal applied to the glass that reflects sunlight away from the home. It provides protection from UV rays, helps keep radiant heat from entering the home, and assists in maintaining interior temperatures.
Comparing Your Options

Good, better, and best options make for clear choices

Our easy-to-understand replacement window program is anchored by our three hung windows with options for enhanced performance and style, creating a true “Good, Better, Best” platform. Utilizing the same stylish sash profile with a nearly endless amount of optional upgrades, we are able to offer a wide variety of enhancements and options to suit all of your replacement window needs.

1620 SINGLE-HUNG
Our **Good** option is the first 1600 Series window to offer operating archtop configurations.

1555 DOUBLE-HUNG
Our **Better** option is a step-up double-hung product that doesn’t sacrifice quality for cost.

1650 DOUBLE-HUNG
Our **Best** option meets ENERGY STAR requirements in all zones with little to no upgrades.

* Shown with optional foam-enhanced mainframe and triple-pane glass

---

**Insulating foam** injected into the mainframe enhances thermal and structural performance.

**Impact-resistant** products are available with StormArmor™ for additional strength against weather.

**Operating archtop** configurations combine a unique aesthetic with effortless operation.

**Triple-pane glass** is available to increase the insulating power of your products.

**Argon** is an invisible gas injected into a glass unit to increase its insulating performance.

**Krypton gas** can be combined with triple-pane glass to provide unbeatable insulation.

**Eight distinctive exterior colors** allow you to customize and enhance the curb appeal of your home.

**Blinds-between-the-glass** offer safe and maintenance-free privacy and light control.

**Lifetime Glass Breakage** warranty covers you for as long as you own your home.

Our **Limited Lifetime Customer Assurance** warranty is offered **standard** on all products so you can trust your decision and know that we value your business.
Complementary Products

Our entire collection of remodeling and replacement products provides a breadth of options for any project. With the flexibility to select from double-hungs, single-hungs, double-sliders, single-sliders, awnings, casements, basement, fixed picture windows, and sliding glass doors, homeowners are able to customize their home to be uniquely theirs.

1630 Single-Slider
1685 Double-Slider
1695 Basement
1665 Awning
1675 Casement
1620PW/1620SP 1555PW/1555SP 1650PW/1650SP Picture/Specialty
1615/1617/1618 Sliding Glass Door
1630 Single-Slider

FEATURES & BENEFITS
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Heavy-duty weatherstripping for protection against wind, rain, dust, and noise
- Dual adjustable roller system results in easy operation
- DP-50 and StormArmor Impact packages enhance coastal performance

PRODUCT DETAILS
- 3 1/4” frame depth
- 3/4” dual-pane or 7/8” triple-pane insulated glass
- Fin, flange, or finless frame

1685 Double-Slider

FEATURES & BENEFITS
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Heavy-duty weatherstripping for protection against wind, rain, dust, and noise
- Interlocking sashes help reduce air infiltration
- Dual adjustable roller system results in easy operation
- Dual-opposing locks create a stronger, safer seal

PRODUCT DETAILS
- 3 1/4” frame depth
- 3/4” dual-pane or 7/8” triple-pane insulated glass
- Fin, flange, or finless frame
1675 Casement

FEATURES & BENEFITS
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Triple weatherstripping for enhanced thermal performance
- Multi-point locking hardware creates a tighter, safer seal
- 90° hinge capability provides maximum ventilation and airflow

PRODUCT DETAILS
- 3 1/4” frame depth
- 3/4” dual-pane or 1 1/8” triple-pane insulated glass
- Flange or finless frame

1665 Awning

FEATURES & BENEFITS
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Triple weatherstripping for enhanced thermal performance
- Multi-point locking hardware creates a tighter, safer seal

PRODUCT DETAILS
- 3 1/4” frame depth
- 3/4” dual-pane or 1 1/8” triple-pane insulated glass
- Flange or finless frame
1620/1650/1555PW
Fixed Picture Window

FEATURES & BENEFITS
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Double-pane insulated glass
- Architectural shapes available (1620SP/1650SP/1555SP)

PRODUCT DETAILS
- 3 1/4" frame depth
- 3/4" insulated glass
- Fin, flange, or finless frame

1695 Basement

FEATURES & BENEFITS
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy efficiency
- Tilts in to allow for ventilation
- Heavy-duty handle provides years of worry-free operation

PRODUCT DETAILS
- 3 1/4" frame depth
- 3/4" dual-pane insulated glass
- Finless frame
1600 Series Sliding Glass Door

FEATURES & BENEFITS
- Available in setup (1615), knockdown (1617), and multi-slide (1618) 2-, 3-, and 4-panel configurations
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Saddle sill with heavy-duty dual rollers provide for easy operation
- Interlock at meeting rail helps reduce air infiltration
- Insulated double-strength tempered glass adds strength and dependability
- Optional exterior key lock for convenience
- Optional foot lock or security bar for added security and piece of mind
- Optional integral blinds-between-the-glass allow for easy cleaning

PRODUCT DETAILS
- 4 ¾” frame depth (two track systems)
- 6 ¾” frame depth (three track systems)
- ¾” insulated glass
- Finless frame
Color Options*

VINYL/EXTRUDED
Solid vinyl extrusions offer even color distribution inside and out for windows and doors that are timeless, durable, and attractive. MI offers three extruded colors that provide enduring style for any home.

White  Almond  Clay

INTERIOR AND EXTERIOR LAMINATES
Interior laminates offer homeowners a satisfying solution when looking for a traditional woodgrain style and our bronze and black exterior laminates are a great choice for enhancing curbside appeal. After the profiles are extruded, the laminate finish is applied by a series of precision rollers and blades.

Colonial Cherry  Natural Oak  Hillside Oak
Black  Bronze

EXTERIOR PAINT
Available on the exterior of several of our 1600 Series products, environmentally friendly, water-based coatings provide outstanding coverage and durability and offer long-term performance and customized beauty. Our oven-baked application ensures the paint will maintain color and prevents cracking, fading, peeling, blistering, and abrasion from impact.

Almond  Forest Green  Bronze  Clay
Cocoa  Cream  Black  Silver
Glass Decoration*

Grids

Make your home your own personal statement with multiple grid options that allow your style to always be on display. Grids between-the-glass are offered in a variety of profiles and sizes, and match the color of your window frame. Simulated divided lite grids are offered in a white sculptured profile to achieve an historic aesthetic. Grids are available in multiple standard and custom patterns to satisfy nearly any desired look.

BETWEEN-THE-GLASS  SIMULATED DIVIDED LITE

Flat  Sculptured  Sculptured

COMMON PATTERNS

Colonial  Diamond  9-Lite Perimeter  6-Lite Perimeter

Blinds-between-the-glass

This unique option offers a quality solution for window and sliding glass door treatments. The blinds are sealed between two panes of glass, resulting in a longer service life compared to standard blinds while also eliminating the need for dusting. Engineered for ease of use, the internal design makes raising and lowering the blinds simple and intuitive and eliminates the possibility of blinds obstructing the window or door operation.

* Color options and glass decorations vary by product. Contact your sales representative for additional details.
