3540 Vinyl Single-Hung Window

The 3540 vinyl high-performance single-hung window offers handcrafted quality, exceptional durability, and optimal energy efficiency for new homes that require high DP ratings. With standard features that include a stylish beveled profile, pre-punched mounting fin, flange frame, and removable sash for easy drywall pass through, the 3540 window is designed for builders. Additional reinforcements in the sash and a surface-mounted tilt latch enhance the functioning of the 3540, making it a dependable high-performance option.

PERFORMANCE FEATURES
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Heavy-duty weatherstripping for protection against wind, rain, dust, and noise
- Additional metal reinforcement in sash stiles
- Mounting fin with pre-punched holes for easy and efficient installations
- Flange frame option for masonry applications
ENGINEERED TO PERFORM
- Multi-chamber mainframe design
- 2 1/4" frame depth
- 3/4" insulating glass
- Continuous head and sill mullings for twins and triples
- 3 frame styles available - fin, flange, finless
- Wood extension jambs available for 4 3/8" and 6 3/4" wall depths
- Available with brickmould accessory and integral J-channel

SAFETY & SECURITY FEATURES
- Dual-opposing locks create a stronger, safer seal
- Optional tempered glass is four times stronger than non-tempered glass and safer if broken
- Optional obscure glass allows light in while protecting privacy
- Optional Window Operating Control Device (WOCD) restricts sash opening and reduces the risk of accidental falls

ENERGY-EFFICIENT GLASS PACKAGES
Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots near windows
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort
- Able to meet ENERGY STAR® requirements in North-Central, South-Central, and Southern climate zones

GLAZING TYPE | U-VALUE | SHGC
