The 4300 vinyl single-hung window offers crafted features that provide **exceptional aesthetics, durability, and energy efficiency.** With standard features that include an exterior brickmould, pre-punched mounting fin, constant-force balance system, and easily removable sash, the 4300 window is made for both style-conscious homeowners and builders looking to create a new home that stands out.

**PERFORMANCE FEATURES**
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Integral J-Channel and mounting fin with pre-punched holes for easy and efficient installation
- True-sloping sill optimizes water drainage and eliminates unsightly weep holes
- Easy sash and fixed glass removal for efficient drywall pass through
- Metal-reinforced lock rail and bottom sash rail delivers strength and durability
Designed smarter, from the inside out

ENGINEERED TO PERFORM
- Multi-chamber mainframe design
- 3 1/4” frame depth
- 3/4” insulating glass
- Wood extension jambs available for 4 3/4” and 6 1/4” wall depths
- Continuous head and sill mulling for twins and triples
- Factor-applied drywall returns available
- 2 frame styles available - fin, finless,

CONVENIENCE & STYLE
The 4300 features the following design details on every window:
- Full-length lift rail
- Easy sash and fixed glass removal
- Top glass is drop-in tape glazed using double-sided adhesive tape
- Optional 3 1/2” flat casing

SAFETY & SECURITY FEATURES
- Dual-opposing locks create a stronger, safer seal
- Optional tempered glass is four times stronger than non-tempered glass and safer if broken
- Optional obscure glass allows light in while protecting privacy
- Optional Window Operating Control Device (WOCOD) restricts sash opening and reduces the risk of accidental falls

Available in 1/8” increments. DP upgrade required for any unit greater than 84” tall.

ENERGY-EFFICIENT GLASS PACKAGES
Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort
- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots near windows
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort
- Able to meet ENERGY STAR® requirements in North-Central, South-Central, and Southern climate zones
