The EC140 awning window combines traditional style with unparalleled energy efficiency and performance for any new construction or renovation and replacement project. The unique frame and sash design create clean, continuous lines and large viewing areas, while allowing fresh air into the home even on rainy days.

**PERFORMANCE FEATURES**

- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy-efficiency
- Dual-foam compression bulb seals for protection against wind, rain, dust, and noise
- Exterior perimeter weatherstripping for enhanced thermal performance

**Welded multi-chamber mainframe design**

**3 ¼” frame depth**

**Dual-pane insulated glass**
ENGINEERED TO PERFORM

- 3 1/4" frame depth
- 3/4" dual-pane insulated glass
- 5 frame styles
  - 1 1/4" fin, 1 1/8" stucco fin, 1" fin, 1 1/8" flush fin, finless

SAFETY & SECURITY FEATURES

- Multi-point locking hardware creates a tighter, safer seal
- Optional tempered glass is four times stronger than non-tempered glass and safer if broken
- Optional specialty glass allows light in while protecting privacy

CONVENIENCE & STYLE

The EC140 features the following design details on every window:

- Folding operator handle and lock lever
- Roll-form screen with Clarity™ mesh

SIZING*

MINIMUM & MAXIMUM (available in 1/8" increments)

- 15 1/2"–60" wide × 15 1/2"–36" high

* Based on single operable unit. See min/max guide for twin and stacked sizing requirements

ENERGY-EFFICIENT GLASS PACKAGES

Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort.

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots near windows
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort
- Able to meet ENERGY STAR® requirements in all four climate zones
