Our Multi-Slide Door is available in two-, three-, and four-track configurations that allow contractors and homeowners to effortlessly blend interior and exterior spaces in new construction or renovation and replacement projects of any size. Featuring an advanced roller system and rot-resistant MikronWood® door panels with wide stiles and mortise and tenon joinery, the Multi-Slide Door is the perfect combination of traditional style, time-tested craftsmanship, and the latest in engineering innovations.

**PERFORMANCE FEATURES**

- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Solid-core, MikronWood door panels are resistant to insects, moisture, and humidity and require minimal maintenance
- Advanced roller system with dual-machined composite wheels and sealed bearings provide smooth, quiet, and effortless operation
- Anodized bronze sill results in long-term performance

**Signature Series handle**

**Dual-pane insulated glass**

**OUR MISSION**

Getting It Right Every Time

We build each of our products the same way we built our company: with integrity and precision. Every MI window and door is handcrafted in the United States using state-of-the-art manufacturing techniques, and is backed by vigorous in-house testing procedures. We are 100% committed to offering the styles, value, and performance you’re after.

Discover everything we have to offer at miwindows.com, or by calling 1-717-365-3300.

- **2-Panel**
  - 59 ¾"–119 ¾" wide × 79 ¼"–95 ¼" high
- **3-Panel**
  - 91 ¾"–145 ¼" wide × 79 ¼"–95 ¼" high
- **4-Panel**
  - 119 ½"–191 ¼" wide × 79 ¼"–95 ¼" high

*Please consult your sales representative for additional sizes and track options

---

**ENERGY-EFFICIENT FEATURES**

Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots near doors
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort
- Able to meet ENERGY STAR® requirements in all four climate zones
