Featuring style, convenience, and egress capability, the tilt/turn window is an ideal option for any new construction or renovation project. By turning inward to accommodate an easy exit in case of emergency, the tilt-turn meets the zoning requirements for many first-floor or basement-level windows. And the tilt option allows you to open the window, bringing in fresh air while still offering top-notch security.

**PERFORMANCE FEATURES**
- Turned-in capability for emergency escape
- Provides more ventilation than most windows whether turned in or tilted
- Simple single-handle operation allows user to turn handle 90 degrees for window to turn in, and 180 degrees for it to tilt inward
- Warm-edge spacer system maximizes energy efficiency and improves seal performance of insulated glass units
- Welded, multi-chambered frame and sash for superior strength and energy efficiency
- Gaskets make up a system of dual-compression seals that keep cold and moisture out
Designed smarter, from the inside out
