

# INTERN PROFILE

RYAN  
MADORE

### *What are your career aspirations?*

I hope to become either a manager or director, and I'd like to be able to focus on charity and giving back to the community.

### *Why did you choose to intern with MI?*

I really got a sense for how much they care about the people that work for the company; especially with the involvement with the community through the charitable foundation. I [also] got a chance to talk to a former intern ... at a career fair. Hearing about her experience with the internship and how meaningful it was really made my decision for me

### *Who did you work with?*

I worked with human resources manager, Joan Cortelyou, and human resources coordinators Erin Sten, and Ryan Curran.

### *Do you have any advice for future interns?*

Don't be afraid to get involved immediately. Take this great opportunity to meet new people and develop your professional skills. [Also], Prioritize your mentor and department projects... Show that you are willing to help in any way needed. Then you will be able to get the support you need to have a successful internship.

### *What did you enjoy most?*

Meeting all the different people in the company. I think the people I worked with made it all worth it.
