

Marketing Announcement

120 Door
Nov. 27, 2018

To: MI Sales Representatives, Dealers, Distributors, and Installers:

In an effort to capitalize on the growing popularity of large, moving glass walls, MI Windows and Doors is now offering our 120 sliding glass doors in 10-foot-high configurations – available immediately – for our southern region. The 120 door will also be available in a new six-panel composition up to 24 feet wide beginning in January 2019. These larger doors effortlessly blend interior and exterior spaces while providing expansive views to the outside.

All 120 doors that are 96 inches or shorter will be glazed with 3/16-inch glass, while doors that are 96.5 inches or taller will be glazed with 1/4-inch glass. All 120 doors will all be individually crated for ease of shipment and loading and unloading.

Featuring a design pressure of +65/-65, the 10-foot-tall 120 doors will be available in impact and nonimpact configurations. They can also be paired with our 185 single-hung window or 1620 single-hung window for complete StormArmor impact-resistant house packages.

Visit www.floridabuilding.org for Florida building approval numbers.

Contact your territory sales representative or regional manager for more information, or visit www.miwindows.com.

Sincerely,

A handwritten signature in black ink that reads "Joshua L Williard".
