

AIA-Accredited Courses At MI Windows

In order to better serve our partners in the architectural profession, MI Windows and Doors now offers two AIA-accredited CEU programs. By taking one or both of these courses, architects can satisfy their continuing-education requirements while increasing their knowledge on the fenestration industry. Available courses are:

Vinyl Windows: Manufacturing Facility Tour

Overview:

Led by members of our seasoned manufacturing leadership team, this interactive course involves tours of our manufacturing facilities in Hegins and Gratz, PA.

- 3 LU/HSW
- Course #: 40107837-002

Learning Objectives

- The process of fabricating vinyl windows and doors for replacement, remodeling, and new construction applications
- The latest advancements in the construction of insulated glass units (IGU's), vinyl mainframes and vinyl sash
- Personal protective equipment (PPE) requirements for the safe manufacturing of vinyl windows and doors
- Requirements for a Quality Management System to qualify for the AAMA's 5+5 certification program
- How to distinguish the most commonly used window types in residential and light-commercial new construction, replacement, and rehabilitation projects

Vinyl Windows: Performance, construction, and functionality for residential and light-commercial applications

Overview:

This one-hour "Lunch-N-Learn" style presentation offers insights and perspectives on the current and historical performance, functionality, and construction of vinyl windows. The all-encompassing class starts with the discovery of vinyl in 1838 and continues through its use in the fenestration industry today.

- 1 HU/HSW
- Course #: 40107837-001

Learning Objectives

- Understand the history of vinyl, what it is, and how it's made
- Recognize the past, present and future market trends for residential new construction and replacement windows in the United States
- Distinguish the most commonly used window types in residential and light commercial new construction, replacement, and rehabilitation projects
- Recognize the key performance-related benefits of specifying vinyl windows for residential and light commercial new construction, replacement, and rehabilitation projects
- Understand key labels, ratings, and standards that govern the U.S. window industry

MI Windows and Doors, LLC is a Registered Provider with The American Institute of Architects Continuing Education Systems (provider # 40107837). Credit(s) earned on completion of this course will be reported to AIA CES for AIA members. Certificates of Completion for both AIA members and non-AIA members are available upon request.

For more information about either of our AIA-accredited CEU courses, contact Anthony Matter at anthony.matter@miwd.com.
