

V2000 Series

Window Comparison

MODELS 3500 & 4300

	3500	4300	WHY IT'S IMPORTANT	
CONSTRUCTION	Fusion-welded mainframe and sash	■	Ensures square frames and sashes while adding strength	
	Integral J-channel	□	Optional J-channel provides optimal solution on exterior cladding	
	Metal-reinforced sash and meeting rail	■	Prevents sash bowing and ensures square installation	
	Warm-edge spacer system	■	Best in class thermal ratings and reduces seal failures	
	Dry tape glazed top glass	■	Easy glass replacement from inside of home and reduced glass breakage	
	Exterior profile	Beveled	Brickmould	Exterior profile to match any cladding style for your build
	Sill profile	Cavity	Sloped	Both sills have field friendly replacement options
STYLE & CONVENIENCE	3 1/2" flat casing		Factory applied flat casing on 4300	
	Class 3 inverted coil balance	■	Commercial grade balance system operated smoothly and easily replaceable	
	Lock and keeper sit below sightline	■	Makes for clean sightlines from exterior	
	Egress 3050	■	Standard egress on both 4300 and 3500	
	Lock screws secured into steel liner	■	Prevents locks from coming off	
	DP-50 upgrade	■	Both series offer DP50 upgrade	
	Continuous head-and-sil for twin and triple units	■	Reduces potential water infiltration from mulls and ensures square installation on multiples	
	SDL Grids	■	Available on both 4300 and 3500	
	Drywall pass-through	■	Standard on all 4300 and 3500. Top glass, meeting rail, and bottom sash are easily removed from inside of home	
	Extruded colors	■	White, almond, and clay	
	Laminated colors	■	N/A	Black and bronze exterior laminate
	Black/Black	■		Available now in select markets
	Painted exterior colors	■	■	Multiple colors available on 3500
	ENERGY*	Low-E options	■	Multiple low e options allow you to choose the best solution for your region
		Argon	■	Available on both 4300 and 3500
Triple pane glazing		■	Available on both 4300 and 3500	
CUSTOMER SERVICE	Limited Lifetime Warranty	✓	Every unit labeled with order for easy warranty identification	
	Quoting/Ordering System	✓	Paradigm quoting/ordering software is efficient and easy to use	
	Modular design	✓	Easy to service all parts of the window	

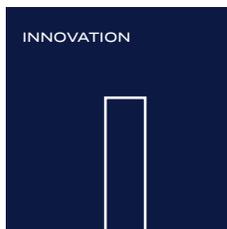

* Based on 30/50 with Low-E and argon enhanced glass package.
 † White extruded exterior is standard.

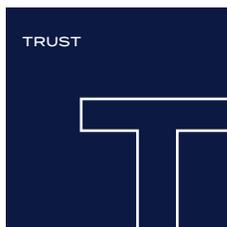

Why MITER Brands

- 98.8% accurate, on-time deliveries by order
- Industry leading lead times
- State of the art manufacturing and shipping technology

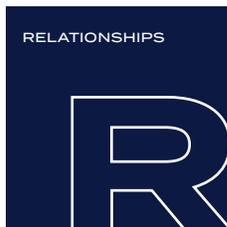

- \$115M in CapEx spending in 2026
- Erdman glass lines, automated fabrication centers, robotic cleaners throughout all manufacturing facilities
- Investing in next generation features and products

- Family owned and operated for over 78 years
- Company culture rooted in philanthropy
- Limited distribution focused on profitable partnerships

- Common purpose is to **deliver value by manufacturing the finest products, services and customers experiences every day**
- Dedicated inside sales support by region
- Easy to use quoting and ordering systems

- Experienced sales force with industry leading tenure
- Always seeking win-win solutions
- Believe in successful partnerships throughout entire network of suppliers, customers, and communities
