

V3000 Series **Model 3075** Casement window

Our redesigned 3075 casement window combines enhanced design pressure performance with narrow sightlines while offering maximum ventilation, elevating the ambiance of any room. Hinged on one side, this vinyl window opens to allow fresh air to flow through your home. Plus, with the optional PureView® mesh screen, you can usher those cool breezes into your space while blocking dust particles and bugs.

What you can expect

DURABLE VINYL CONSTRUCTION

The 3075 casement windows are made from a high-quality signature vinyl formulation known for its durability and low maintenance. Vinyl is resistant to moisture, warping, and corrosion, ensuring long-lasting performance and minimal upkeep. The redesigned sash includes additional supports and chambers that improve structural performance to meet evolving building codes.

BLACK CAPSTOCK FINISHES

New to the 3075 is our advanced co-extruded capstock, providing a durable, high-performance black finish. This technology enhances resistance to fading, chalking, and scratching, ensuring lasting beauty and minimal maintenance.

EASE OF USE

The 3075 casement windows open like a door, being hinged on one side and swing out wide for maximum ventilation. The low profile, folding nesting handle tucks away for a clean sight line.

Engineered to perform

- The redesigned 3075 is available with 1-1/8" glazing pocket for improved STC performance
- Available in 1-3/8" nail fin setback and block frame
- SunCoat® Low-E2 glass coatings come standard on the 3075 for added energy performance
- PureView® mesh screen is available to keep debris and bugs from entering your space, without obstructing your view
- Designed for new construction or replacement applications
- The 3075 comes with Lifetime Limited Warranty

Energy efficient glass

Able to meet ENERGY STAR® requirements in all four climate zones. Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort.

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots near windows
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort

GLASS PACKAGE	U-VALUE	SHGC	ENERGY STAR ZONE
Low-E and Argon	0.26	0.23	SC, S
Low-E and Argon with Grid	0.26	0.21	SC, S
HP-Low-E and Argon	0.26	0.17	SC, S
HP-Low-E and Argon with Grid	0.26	0.16	SC, S
Triple Pane Low-E and Argon	0.19	0.19	N, NC, SC, S
Triple Pane Low-E and Argon with Grids	0.19	0.18	N, NC, SC, S

All values are for 7/8" insulated glass.
